

## About the Society

Bradford Photographic Society was formed by a small group of enthusiasts in November 1860 and has been active in the city ever since. This makes it one of the oldest photographic societies in the world.

We have a series of weekly meetings from September until June featuring a mix of informative and instructional lectures, social events, practical sessions and competitions, all in a friendly atmosphere where help and advice are always on hand.

Membership is open to all, whatever their levels of experience or equipment.
